

# Sunbeam Academy Knowledge Park

Any place can be good to read and learn for those who love to read and study. For them, knowledge is immaterial, the space does not matter, and physical context is secondary. However, if we look at this in the reality of educational systems, the conditions of the schools directly impacts the performance of the students.

The location of a school has an enormous significance, and it should be set up in a suitable atmosphere. It should be far away from the noises and the polluting atmosphere where the child can easily absorb what is being taught in school. The ambience should be calm, spacious with good amenities and utilities in a visually appealing landscape. The school should have enough lighting, useful facilities such as libraries, toilets, playground, sinks, multipurpose rooms, work areas, storage, spaces, teachers, administration, etc.

Sunbeam Academy Knowledge Park is one of its kind schools in the entire region. The school's world class 3-acre campus houses an impressive array of facilities for the children. Sunbeam Academy Knowledge Park offers facilities for academics, sports, and co-curricular activities that conform to international standards.

## **School Building:**

The building is spacious, well planned with good architectural features. There is good ventilation in all the classrooms along with facilities like fans, lights, benches, chairs, backboard, etc. There are also facilities such as laboratories, art and crafts area, school office, open stage and many more. The campus is protected with Close Circuit Camera to have a fingertip control over the area. The building gives access to dual staircase which is very important for the safety during natural calamity.

## **Classrooms:**

The backbone of any school's infrastructure is the classroom. There are 26 vast classrooms. All the classrooms are well ventilated, luminous and furnished. The front wall carries an appropriate blackboard. One wall of each classroom has a soft board to illustrate students' craftsmanship. Among these classrooms 8 are digital which help us to provide our pupils progressive learning.

## **Library:**

It plays an important part in the learning process of the school as it's a counterpart of the schools infrastructure. Our library is located in a place where it's quiet and calm with a soothing ambience for the students to concentrate better. From traditional to digital we offer our students numerous volumes either in paperback or in softback mode.

## **Labs:**

A lab is a place equipped for experimental study in science and technology. It is a place providing opportunity for experimentation, observation, or practice in a field of study. Our school endow with five laboratories - Composite Science Lab , Information Technology Lab with Wi-Fi enabled, Physic lab, Chemistry lab, Biology Lab

## **Early Learning Lab:**

We believe that with the right support all children can be happy, healthy, engaged learners on their first day of school and every day thereafter. The Early Learning Lab works to ensure children's healthy development and kindergarten readiness from birth to age 5, when it matters most.

## **Sports:**

Sport pertains to any form of competitive physical activity or game that aims to use, maintain or improve physical ability and skills while providing enjoyment to participants and, in some cases, entertainment to spectators. Our school is rich in sports as it is having a full size Basket Ball ground, Children's Park with slides, swings etc. and a Foot Ball Ground. We all encourage students in Skating and we are happy to announce that they participate in National Competitions to glorify Sunbeam Academy. Apart from these we cultivate indoor games also like Table Tennis, Carom, Frisbee etc.

## **Music:**

Music is the art of arranging sounds in time to produce a composition through the elements of melody, harmony, rhythm, and timbre. It is one of the cultural universal aspects of all human societies. Thus here, in our campus we give utmost importance to Music. Our Music department is flourished in both the way -Vocational and Instrumental. Students have given access to the instruments like Tabla, Keyboard and Kango under supervision of expert professional. Vocational department trained students in classical through various stages.

## **Auditorium:**

The Open Stage is definitely a captivating structure of Sunbeam Academy Knowledge Park. It is perhaps the most visited place of the school, situated at the right of the building from main gate is equipped with the most modern and audio visual facilities and an impressive seating capacity.

## **Administrative Block:**

The Administrative Block of the school is a well-planned and spacious building that consists of a vast Reception and a well-laid-out corporate zone. The corporate zone consists of the offices of the Director, the Secretary, the School Principal, and the Headmistress along with is luxurious waiting area for visitors.

The overall ambiance of the school is very impressive. It surrounded with huge granary and fresh air. All students here taken care with personal touch and emotions.
